Gentlemen:

I have owned my own business for fifteen years and have three employees. I have written to you regarding my opposition to the workplace smoking regulation proposed by OSHA.

This regulation, if it passes, would violate individual freedom. It would be a financial burden on me. People who want to smoke have the freedom to smoke and the government should not take that freedom of choice away from them.

I want the officials at OSHA to vote against this proposal. Please let me know your response to this matter.

Sincerely,

Diana Christian
